EXAMINER'S AMENDMENT

Election/Restrictions

1. Newly submitted claims 71-74 are directed to an invention that is independent or distinct from the invention originally claimed for the following reasons:

- I. Claims 54-70, drawn to a top-pumped optical waveguide, classified in class 359, subclass 341.32.
- II. Claims 71-74, drawn to a method of making a top-pumped optical amplifier, classified in class 438, subclass 30.

2. Inventions I and II are related as process of making and product made. The inventions are distinct if either or both of the following can be shown: (1) that the process as claimed can be used to make another and materially different product or (2) that the product as claimed can be made by another and materially different process (MPEP § 806.05(f)). In the instant case, the method can be used to make an planar optical amplifier.

Since applicant has received an action on the merits for the originally presented invention, this invention has been constructively elected by original presentation for prosecution on the merits. Accordingly, claims 71-74 are withdrawn from consideration as being directed to a non-elected invention. See 37 CFR 1.142(b) and MPEP § 821.03.

Allowable Subject Matter

3. Claims 54-70 are allowed.

4. This application is in condition for allowance except for the presence of claims 71-74 directed to a method of making a top-pumped optical amplifier non-elected without traverse. Accordingly, claims 71-74 have been cancelled.

5. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Deandra M. Hughes whose telephone number is 571-272-6982. The examiner can normally be reached on M-F, 8:30am-5:00pm.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Jack Keith can be reached on 571-272-6878. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
